Welcome to the Kindbody Brand Guidelines

Brand guidelines are crucial for maintaining a consistent and cohesive brand image across all touchpoints, which ultimately leads to increased brand awareness and recognition.

By establishing clear rules and instructions for visual elements and messaging, brand guidelines help ensure that the brand is properly articulated and represented to the public. This also helps to create a sense of comfortability and familiarity with the brand, as customers know what to expect from the brand and can easily recognize it in different contexts.

Logo

The Kindbody logo is at the heart of all our communications — an instantly recognizable symbol of the brand. That's why adhering to the specific usage guidelines outlined is crucial to maintain the logo's integrity and maximize its impact in representing the Kindbody brand.

LOGO

Logo

The Kindbody logo is a combination of the fonts, Pitch and Locke.

Both fonts pay modern homage to the typewriter - a design embedded with beautiful, classic detail, history, and revolution - launching women into the professional workforce.

Beyond it's physical characteristics, the body is essentially a container for the soul. The parenthesis embody both the body and mind creating an ownable and scalable visual brand device.

LOGOMARK

LOGO

Usage

Our primary logo color usage is Navy on a light background. Secondly, the logo in white or in a yellow box can be used for legibility.

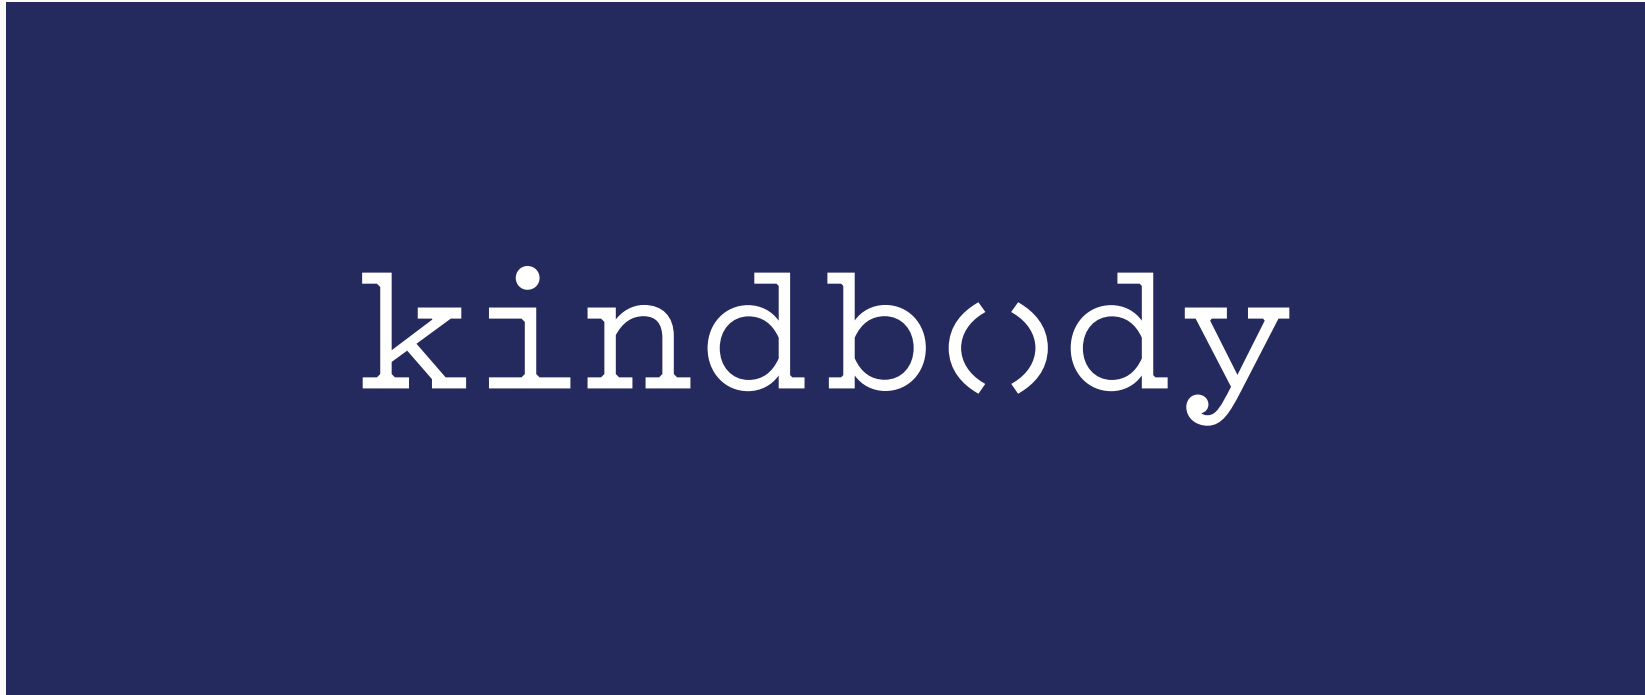

We always want our logo to stand out, please use the version that has a yellow box behind it for busy backgrounds like on top of photos, or on crowded slides.

Lockup with client logos

For co-branding with clients and partners we recommend using the Kindbody logo lockup with the plus sign symbol. Examples of horizontal and stacked lockup options can be found to the right.

If a client requests a custom lockup, we can accommodate their specifications. For instance, the example to the right shows how the Kindbody logo has been customized to meet Walmart's branding requirements.

Color Palette

The Kindbody color palette embodies the spirit of the brand. Color palettes play an important role in establishing a brand's visual identity and personality. It's important to use the colors as directed across all creative assets.

COLORS

Primary Color Palette

Yellow produces a warming effect, arouses cheerfulness, and stimulates mental activity. It also evokes pleasant feelings - joy, optimism, happiness, sunshine, imagination, and hope. This is what makes Yellow Kindbody’s primary color.

To balance the vibrancy of our primary color, we also use cream, navy, and rose as primary neutrals. These colors add a sense of stability and sophistication to our palette, helping to create a balanced and harmonious visual identity for our brand.

Typography

Typography is an essential component of the Kindbody brand's visual identity, reflecting the brand's personality and values. The selection of fonts, sizes, and styles can greatly impact the overall brand experience and message communicated to the audience. Therefore, it's crucial to use the specified typography consistently across all creative assets, as outlined in the brand guidelines. By doing so, brands can establish a strong and cohesive brand identity that resonates with their audience and reinforces their brand's message.

Imagery

Imagery and photography is an important tool in communicating Kindbody's brand message, values, and personality. By carefully selecting and using images that align with our brand's identity, we can create a visual language that resonates with our audience and helps establish a unique and memorable brand experience.

IMAGERY

Photography

Kindbody photography is all about capturing real moments, featuring our actual patients and doctors in our clinics. We strive to use bright and colorful imagery that reflects our positive and welcoming environment. Whenever possible, we prioritize photos that include people over empty clinic shots, as they can convey a sense of warmth and human connection that is integral to our brand.

To ensure consistency and professionalism, headshots for our doctors and Kindbody employees should be taken at our clinics, with a preference for neutral clothing. If taking headshots at our clinics is not possible, we recommend using a neutral background to maintain a consistent look and feel.

IMAGERY

Clinic Photography

Our clinic photography is perfect for showcasing specific locations or highlighting our clinics in copy. These images include exterior shots, living rooms (our version of a lobby), and exam rooms. By using these images, we can provide an accurate and inviting representation of our clinics, giving our audience a glimpse into the warm and welcoming environment they can expect when visiting us.

Messaging

This is a guide for all employees and for all writers, editors and designers, internal and external, who provide us with content (copy, images, video) for the Kindbody website, marketing materials, and digital media.

An essential part of building a brand is ensuring consistency in both internal and external communications. These guidelines will ensure everything you write, design, and create is consistent with the Kindbody brand.

MESSAGING

Overview

Our Mission (short)

Kindbody's mission is to make fertility care more affordable and accessible for all.

Our Mission (long)

We are on a mission to revolutionize fertility care by delivering an unparalleled patient experience, innovative treatment options, and superior success rates. Utilizing our proprietary technology and our own Kindbody fertility clinics, we democratize access through unique employer benefit solutions.

We are changing the landscape of how fertility care is delivered forever – one family, one community, one baby at a time.

Our Vision

To help everyone in the world realize their dream of a family.

MESSAGING

Who We Are

About Kindbody (Boilerplate)

Kindbody is a leading fertility clinic network and global family-building benefits provider for employers offering the full-spectrum of reproductive care from preconception to postpartum through menopause. Kindbody is the trusted fertility benefits provider for 121 leading employers, covering 3.1 million lives. Many thousands more receive their fertility care directly from Kindbody throughout the country at signature clinics, mobile clinics, and partner clinics. As the fertility benefits provider, technology platform, and direct provider of care, Kindbody delivers a seamless, integrated experience with superior health outcomes at lower cost, making fertility care more affordable and accessible for all. Kindbody has raised \$315 million in funding from leading investors including Perceptive Advisors, JP Morgan Chase's Morgan Health, GV (formerly Google Ventures), RRE Ventures, Claritas Health Ventures, Rock Springs Capital, Distributed Ventures, Whatif Ventures and TQ Ventures. MESSAGING

Our Brand Voice and Tone

Our voice and tone bring our brand attributes and values to life in written and spoken communications. It affects our choice of words and the style with which they are delivered. **Our voice is kind, approachable, empathetic, and authentic — no matter who we are talking to or what medium of communication we use.**

Our communication is warm, genuine, and sincere. We are approachable, empathetic, and encouraging. We don't use jargon, rather our communication is personable, inclusive, and human. We sound encouraging when there is frustration and positive in moments of doubt. We are supportive and reassuring. We care deeply about the problem we are solving and the people we are serving.

We are creative and committed to finding better ways to solve problems and better serve our patients and clients. We are not afraid to deviate from the status quo, when it is in the best interest of our patients. We strive for excellence.

We are compassionate and fueled by our mission. We are not afraid of challenges. We have the ability to put ourselves in our patients and clients shoes, and we leverage this skill to communicate in a way that inspires confidence and makes them feel understood and supported.
